

Singular™ from Ideal Standard

Solutions for hotels

Ideal Standard

Sector book series

Ideal Standard is Singular™ The choice is yours.

Singular aims to offer a vast array of solutions from the Ideal Standard catalogue, so you can create your own. From the home to hospitals, we offer bathrooms and washrooms that meet every possible need.

Singular is more than just an idea. To illustrate Singular, we have developed a series of books where creative inspiration and practical solutions come to life to offer endless possibilities and to present project ideas that work in the real world. From taps to bathroom suites, from design to installation, Singular offers infinite solutions to architects, hotel managers and individuals thanks to Ideal Standard's unrivalled expertise. Our sector books present well-defined solutions with information on styles, dimensions, colour palettes, technical performance and specific details for each sector. Each one is a guide you can rely on. Welcome to our Hotels book.

Inspiring Solutions for tomorrow.

Whether it's the latest colour trends, innovative new materials that allow for highly complex designs or sustainable solutions that help save water, at Ideal Standard we design all our products with the needs of our customers in mind. While we can look back on a proud history of pioneering technologies as well as a strong design heritage, we always keep an eye firmly fixed on the future to meet the ever-changing demands of modern living.

Where it
all comes
together.

Whether you're an architect,
a specifier or an installer,
Singular™ offers a seamless
journey to that one, perfect
cross-category solution. Yours.

Where it all comes together.

From inspiration to installation, Singular™ is our end-to-end journey for creating endless cross-category washroom and bathroom solutions for all of our customers.

It's built on our understanding of customer and sector needs, and brings together our specification expertise, design and performance to create solutions that make life easier for everyone.

Innovation & Research

Our Design Center in Milan.

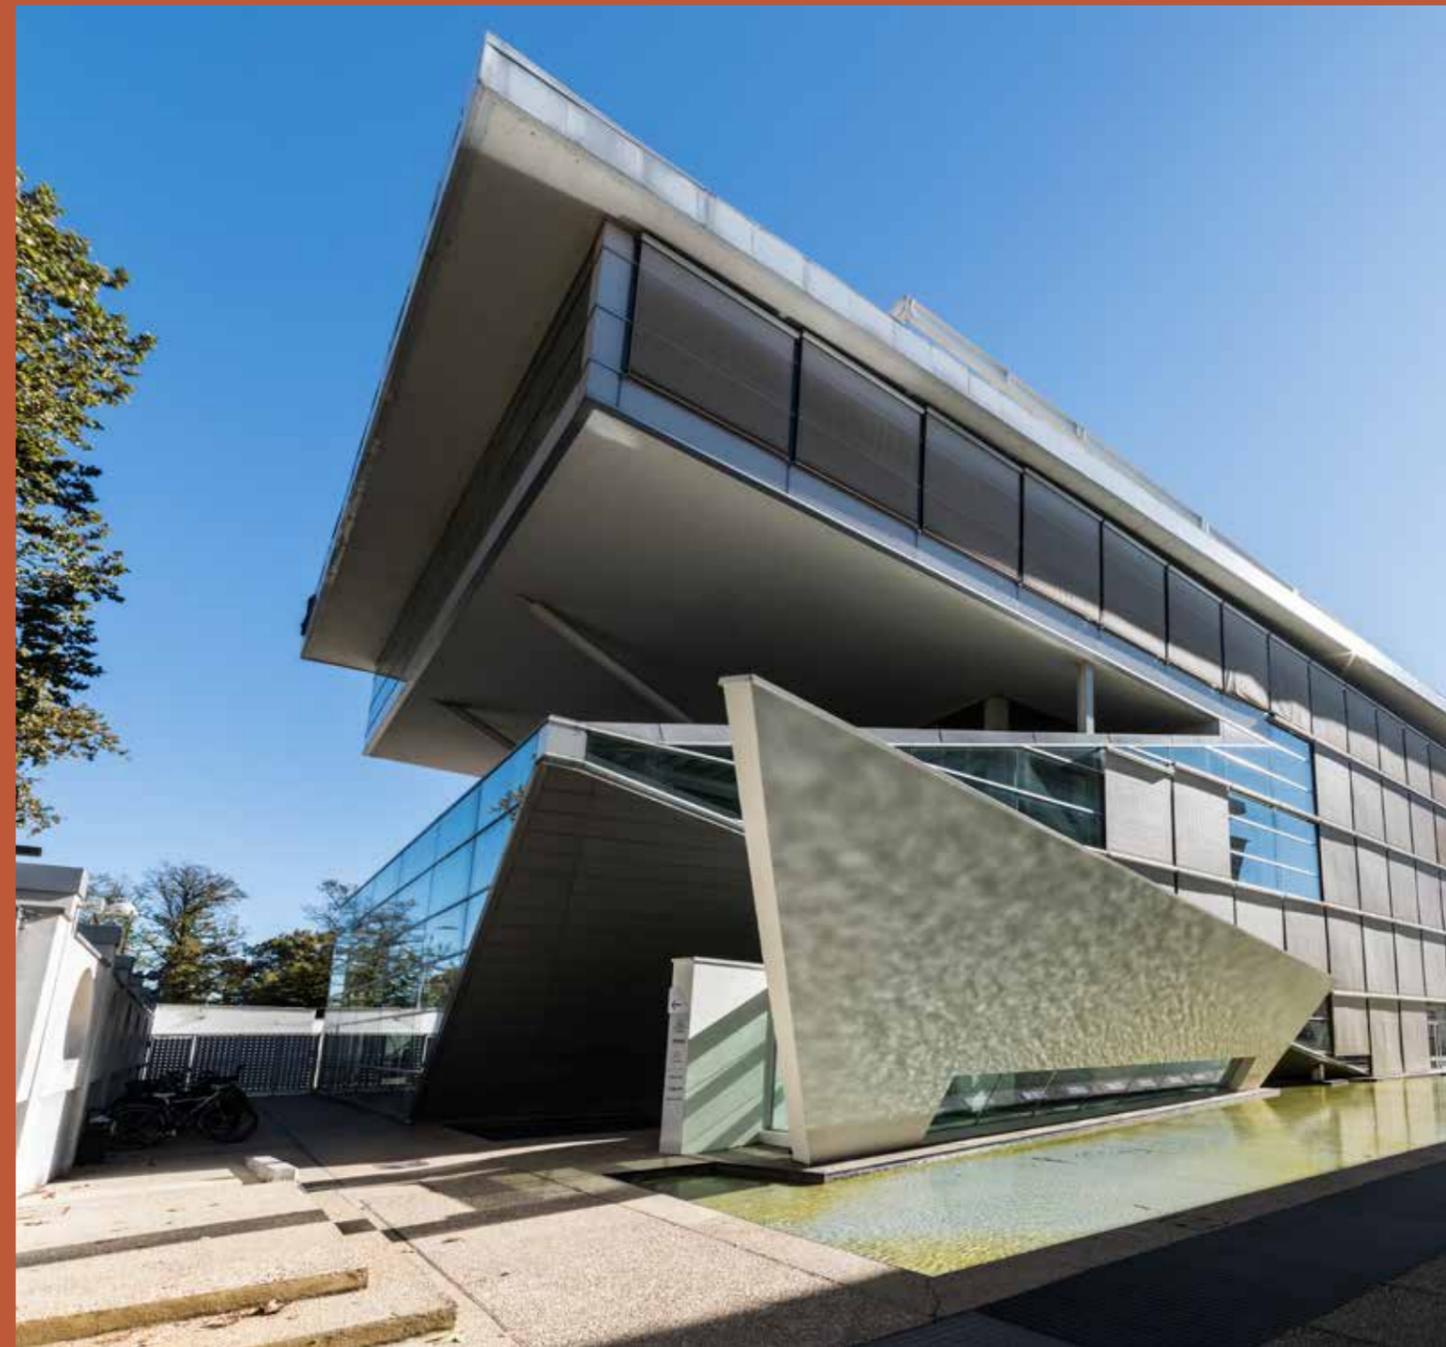

We are always looking to respond to the needs of today and anticipate those of tomorrow. That's why we created a design centre in Milan - one of the most influential cities worldwide in the field of design.

There, under the guidance of Roberto Palomba - multi-award-winning architect and Chief Design Officer at Ideal Standard - our teams research trends, imagine new possibilities and transform them into products to depend on.

Our Awards

We design a purpose.

Our products are acclaimed by people throughout the industries we work with. The number of awards we've won is testament to our dedication to craftsmanship, quality and design.

Hotels are creators of experience.

Washrooms are crucial to brand perception and customer experience in hotels. It's all about creating a desirable space, where personal comfort is a major consideration. Calling on a diverse colour palette and flexible layout, all elements work together to enrich the experience while achieving efficiency in traffic flow and hygiene for a consistently high standard of appearance. With our expansive collections, supported by the hidden brilliance of performance technology, we have all you need to create an ideal washroom or bathroom experience for your customers.

Our Customers

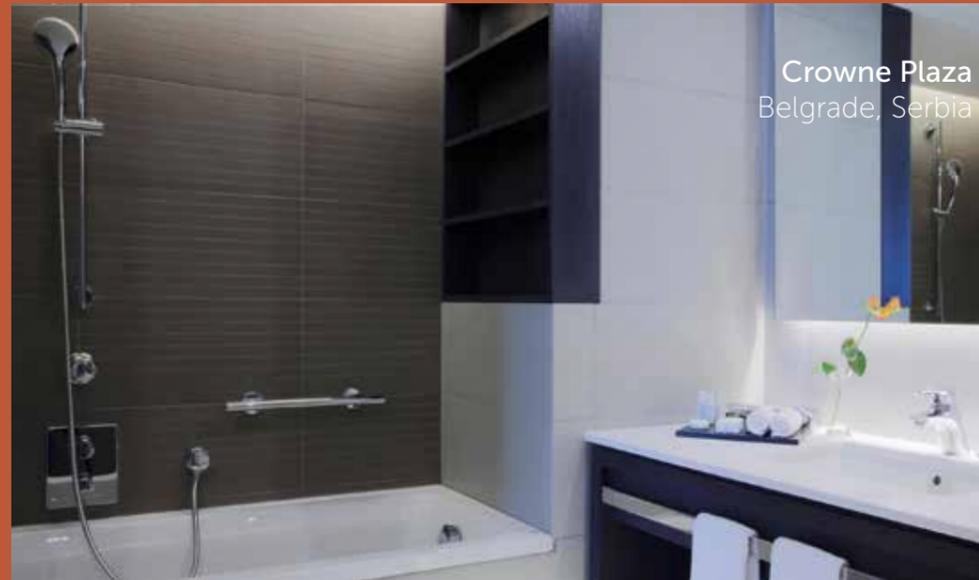

One point of contact,
multiple solutions.

Singular[®]
from Ideal Standard

Leading brands across the world trust in the expertise of our people to specify products that deliver on performance and aesthetics, providing an optimal user experience in a beautiful environment.

Whether it's a luxury metropolitan hotel, an elite sports stadium or an international conference centre, Singular provides a suite of solutions that can be tailored to your exact requirements. Utilise our room plans or adapt them to create your own; everything is possible with Singular.

Singular™
from Ideal Standard

A perfect space where purity and calm combine.

The perfect break makes time for both action and relaxation; for excitement and for peace. Singular enables you to create an oasis of calm in a busy city where guests can de-stress after a frenetic day.

Conca from our Atelier Collections brings an essence of sensuality and minimalism to any bathroom. Its lines are at once geometric and organic, like natural basins carved by water, with a tactile beauty that belies its functionality and durability. Create a space of purity and calm in your hotel with Conca.

A sophisticated exchange between space and form.

Removing the division between bedroom and bathroom creates an open-plan space which feels bigger and brighter. Combining an architectural vision with sculpted geometry, the Extra basin collection is the perfect fit for this design concept.

The evergreen square design of Extra works in harmony with Conca furniture, effortlessly blending together and set off by the curved elegance of Joy. All combine to create a living space that exudes serenity and simplicity.

Surroundings that indulge us.

The Linda-X collection allows you to create a design that is as relaxed, as tactile, as enticing as you want it to be. This range of ceramics doesn't adapt to the energy in the room, it influences it.

Linda-X has been inspired by the the iconic Linda range, originally created by Achille Castiglioni. The range perfectly represents the seamless fusion of sensual beauty and innovative design.

A space to invigorate or de-stress.

Conca brings sensuality and minimalism to the guest bathroom. The contemporary interpretation of Paolo Tilche's design icon, this range of ceramics reaches a new level of purity, effortlessly merging tactile beauty with function and performance.

This is a space of choices. Dual Idealrain showers to invigorate and inspire as the day begins; the Conca free-standing bath to wind down and de-stress as night draws in.

A calm yet revitalising start to the day.

A luxury showering experience is a vital ingredient in a busy break or work stopover. That makes the Idealrain shower the perfect, energising start to a long day of exploring or a succession of demanding meetings.

Sanitaryware from our Blend and Linda-X ranges allows guests to step out into a bathroom of serene white ceramics and brilliant chrome. Together, they ensure a calm yet revitalising start to an energetic day.

A unique sensory embrace.

Silk Black is a collection of contrasts. It is powerful yet subtle; strong yet smooth. These contradictions work together to create an unmatched effect on the senses.

With its sleek and contemporary styling, the Connect Air range is characterised by gentle curves and a minimal aesthetic. But when combined with the Silk Black finish, these delicate features make a dramatic statement in any bathroom.

The epitome of light.

The impossibly fine ceramics of Linda-X lend a delicate elegance to any bathroom. Formed with Ideal Standard's sustainable and robust blend Diamatec®, this range of basins and baths has a curved purity that is calm in essence yet moulded for strength.

Combined with the vibrant palette of Conca furniture and the rounded simplicity of Joy brassware, Linda-X enables architects and designers to create spaces that are unexpectedly light, almost immaterial.

Perfection in simplicity.

The best design is all about creating products which are quietly brilliant. i.life S is a space saving solution that enhances space without sacrificing performance.

i.life S is the embodiment of Ideal Standard's ethos of simply making modern living better. It brings a sleek and contemporary minimalism to any bathroom with a quality of manufacture that means you can simply leave it to do its job while you're busy doing yours.

Designed for independence.

There's no need to sacrifice beauty to achieve accessibility. However, it's important to strike the right balance between style and functionality.

Concept Freedom offers both. This bathroom works for people with differing mobility needs, featuring a raised WC and chrome rails for easier movement.

Concept Freedom is all about thoughtful design for an independent lifestyle.

Leave the ordinary behind.

Striking dark hues speak of boldness and sophistication, creating an immediate yet lasting impact. Elevating any room in an instant, Silk Black from Ideal Standard is an opportunity for effortless self-expression.

This versatile portfolio enables architects and designers to create spaces of sleek elegance or simply to create visual contrast with traditional white products. Whichever approach you choose, Silk Black dares you to be different.

The everyday retreat.

A ritual dating back 4,000 years, bathing has gained a special place in modern life. It helps to melt away stress, enabling guests to reset before an evening of dining and relaxing. The i.life B collection offers a choice of bath shapes with toilets and basins to match.

Complemented by Ideal Standard's vast range of taps, flushplates and accessories, it has everything you need to create a tranquil sanctuary where the world outside ceases to matter.

A striking contrast.

Sometimes it's better to whisper than to shout. Using our Silk Black collection to create contrast against traditional white ceramics is the subtle way to achieve a striking effect.

In this stunning guest bathroom, the ebony finish of Ceratherm T25 shower system and Cerafine O basin mixer are set off beautifully by the pure white of the Strada II vessel basin and the Adapto console.

Where performance meets durability.

Clean geometric looks and pure shapes enable i.life B to create a contemporary space that embraces style and strength in equal measure. The classic Ceraplan brassware collection complements the ceramics with a modern, slim design.

The i.life B range brings together performance and design with a clean and minimal look in pure white and chrome or the opportunity to play with colour through the seven furniture finishes.

Clean lines and gentle curves.

This guest bathroom is the epitome of light design, where nothing is overstated. Pure white in the gently curved ceramics of Connect Air perfectly complement the clean lines of the low profile Ultra Flat S i.life shower tray.

These are matched by the crisp chrome finish of the Ceratherm T100 shower system, featuring dual rainshower and three-function handspray for an unrivalled and invigorating showering experience.

A tailored showering experience.

Singular offers endless opportunities to personalise. High performance showers ensure an invigorating experience in which spray modes can be switched at the touch of a button.

Sleek low profile shower trays work with expertly engineered enclosures to add a subtle yet distinctive look to the bathroom. Complete the effect with a stylish combination of vanity unit and basin for a bathroom which is quietly contemporary and effortlessly elegant.

Hygiene

AQUABLADE® TECHNOLOGY

AquaBlade is the ultimate flush technology combining elegant design, superior hygiene and performance.

RIMLS+

The ultimate easy clean answer to increasing demands in hygiene.

EASY CLEAN

Soft rub-clean nozzles reduce lime scale and facilitate cleaning.

Installation & Maintenance

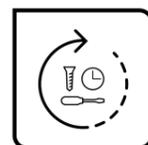

EASYFIX®

Installation of fittings couldn't be easier thanks to pre-assembled components that help you save up to 30% of installation time.

EASY TO TAKE OFF

Cleaning made easy. A simple press of a finger allows the seat and cover to be unclipped so the surface can be wiped clean.

EASYFIX+®

Assembling becomes quicker and faster, with up to 50% saving on installation time.

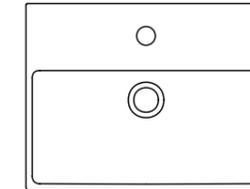

SMARTSHINE®

SmartShine finishing allows our chrome to last longer. It makes our taps easy to clean and easy to maintain.

Singular™
from Ideal Standard

Leaders in performance

From comfort and safety to hygiene, durability and sustainability, excellence in performance makes everything possible.

Combining experience and expertise allows us to push past limitations into new possibilities, and deliver innovations that set a new standard in washrooms and bathrooms. It's ingenuity at its best. It's leadership in performance.

Diamatec®

Engineered to enjoy.

Striving to achieve the most thin and precise designs in ceramics, Diamatec® was developed using a unique blend of alumina and chamotte. The result is a new material that allows you to achieve the near impossible: highly complex and challenging designs with unprecedented strength and durability. Combined with our colour palette, Diamatec® creates a look to enjoy.

• A unique blend of alumina and chamotte.

• A material that allows highly complex and challenging designs.

• Unprecedented strength and durability.

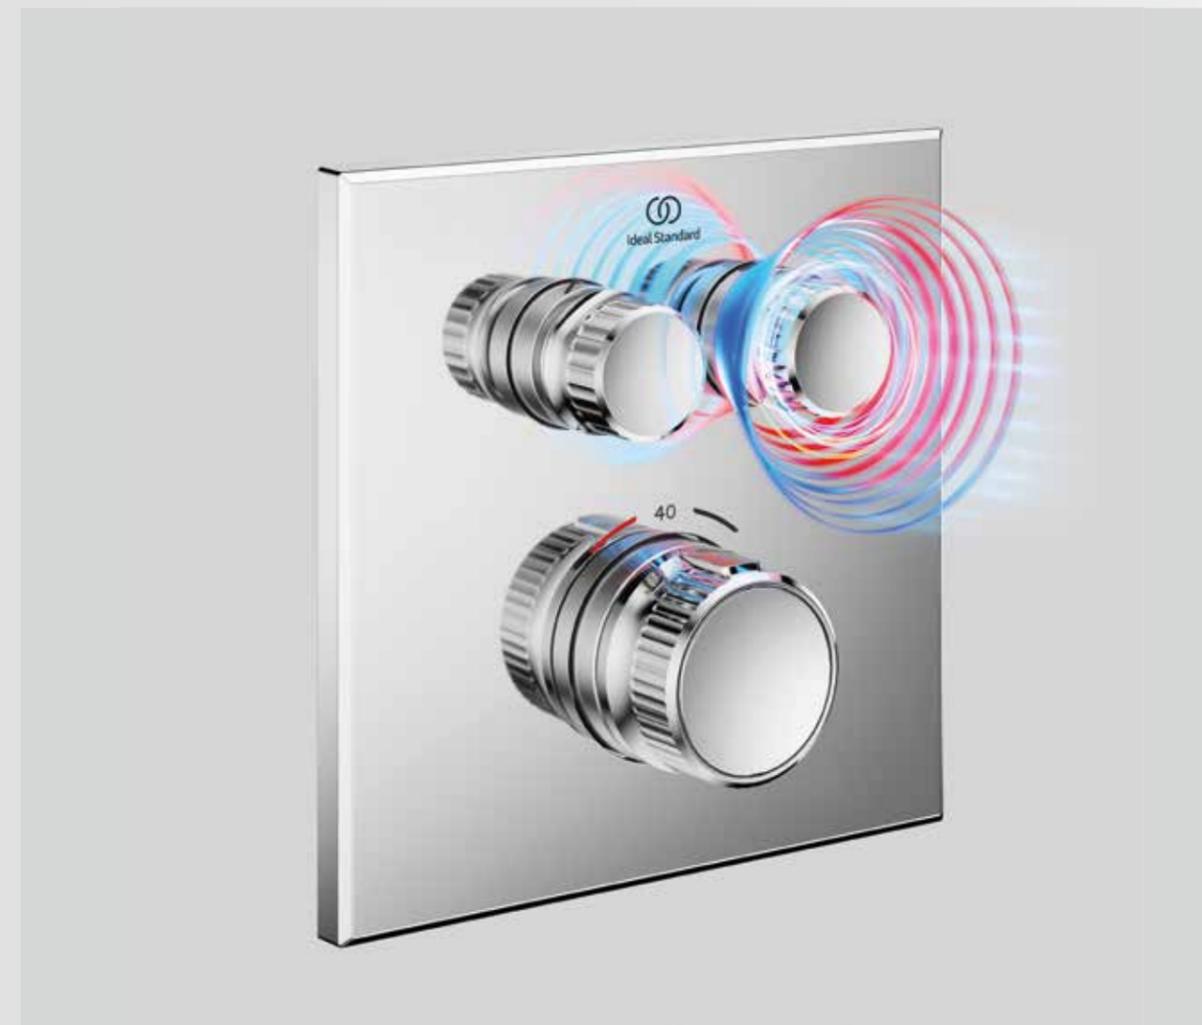

FirmaFlow®

Engineered to last.

We pioneered the ceramic disc cartridge in 1969. This innovation redefined the way people used bathrooms and made it possible to create the single lever tap.

As an advanced development of the original ceramic disc cartridge, some 50 years on, FirmaFlow® is an undisputed market leader. With its innovative engineering and extraordinary durability, Firmaflow provides comfort and control lasting for twice as long as the industry standard.

Navigo®

Engineered for control.

Experiencing the ultimate control of water temperature and flow has never been easier with Navigo, supported by the hidden technology of the Easy-Box shower kit. The two upper knobs enable you to turn the water on/off and adjust the volume in one smooth movement. It's technology you can rely on.

● Sleek, minimalist look for the modern bathroom.

● Single push-button control of on/off water and volume.

● Precise and consistent temperature settings.

RimLS+®

**Engineered
for hygiene.**

With every flush, RimLS+® delivers a powerful whole-bowl clean with no place for bacteria to hide. Splash-free and easier to clean, RimLS+® is the go-to solution for busy bathrooms.

"9 out of 10 households would buy an Ideal Standard Rimless + toilet thanks to its hygiene performance."*

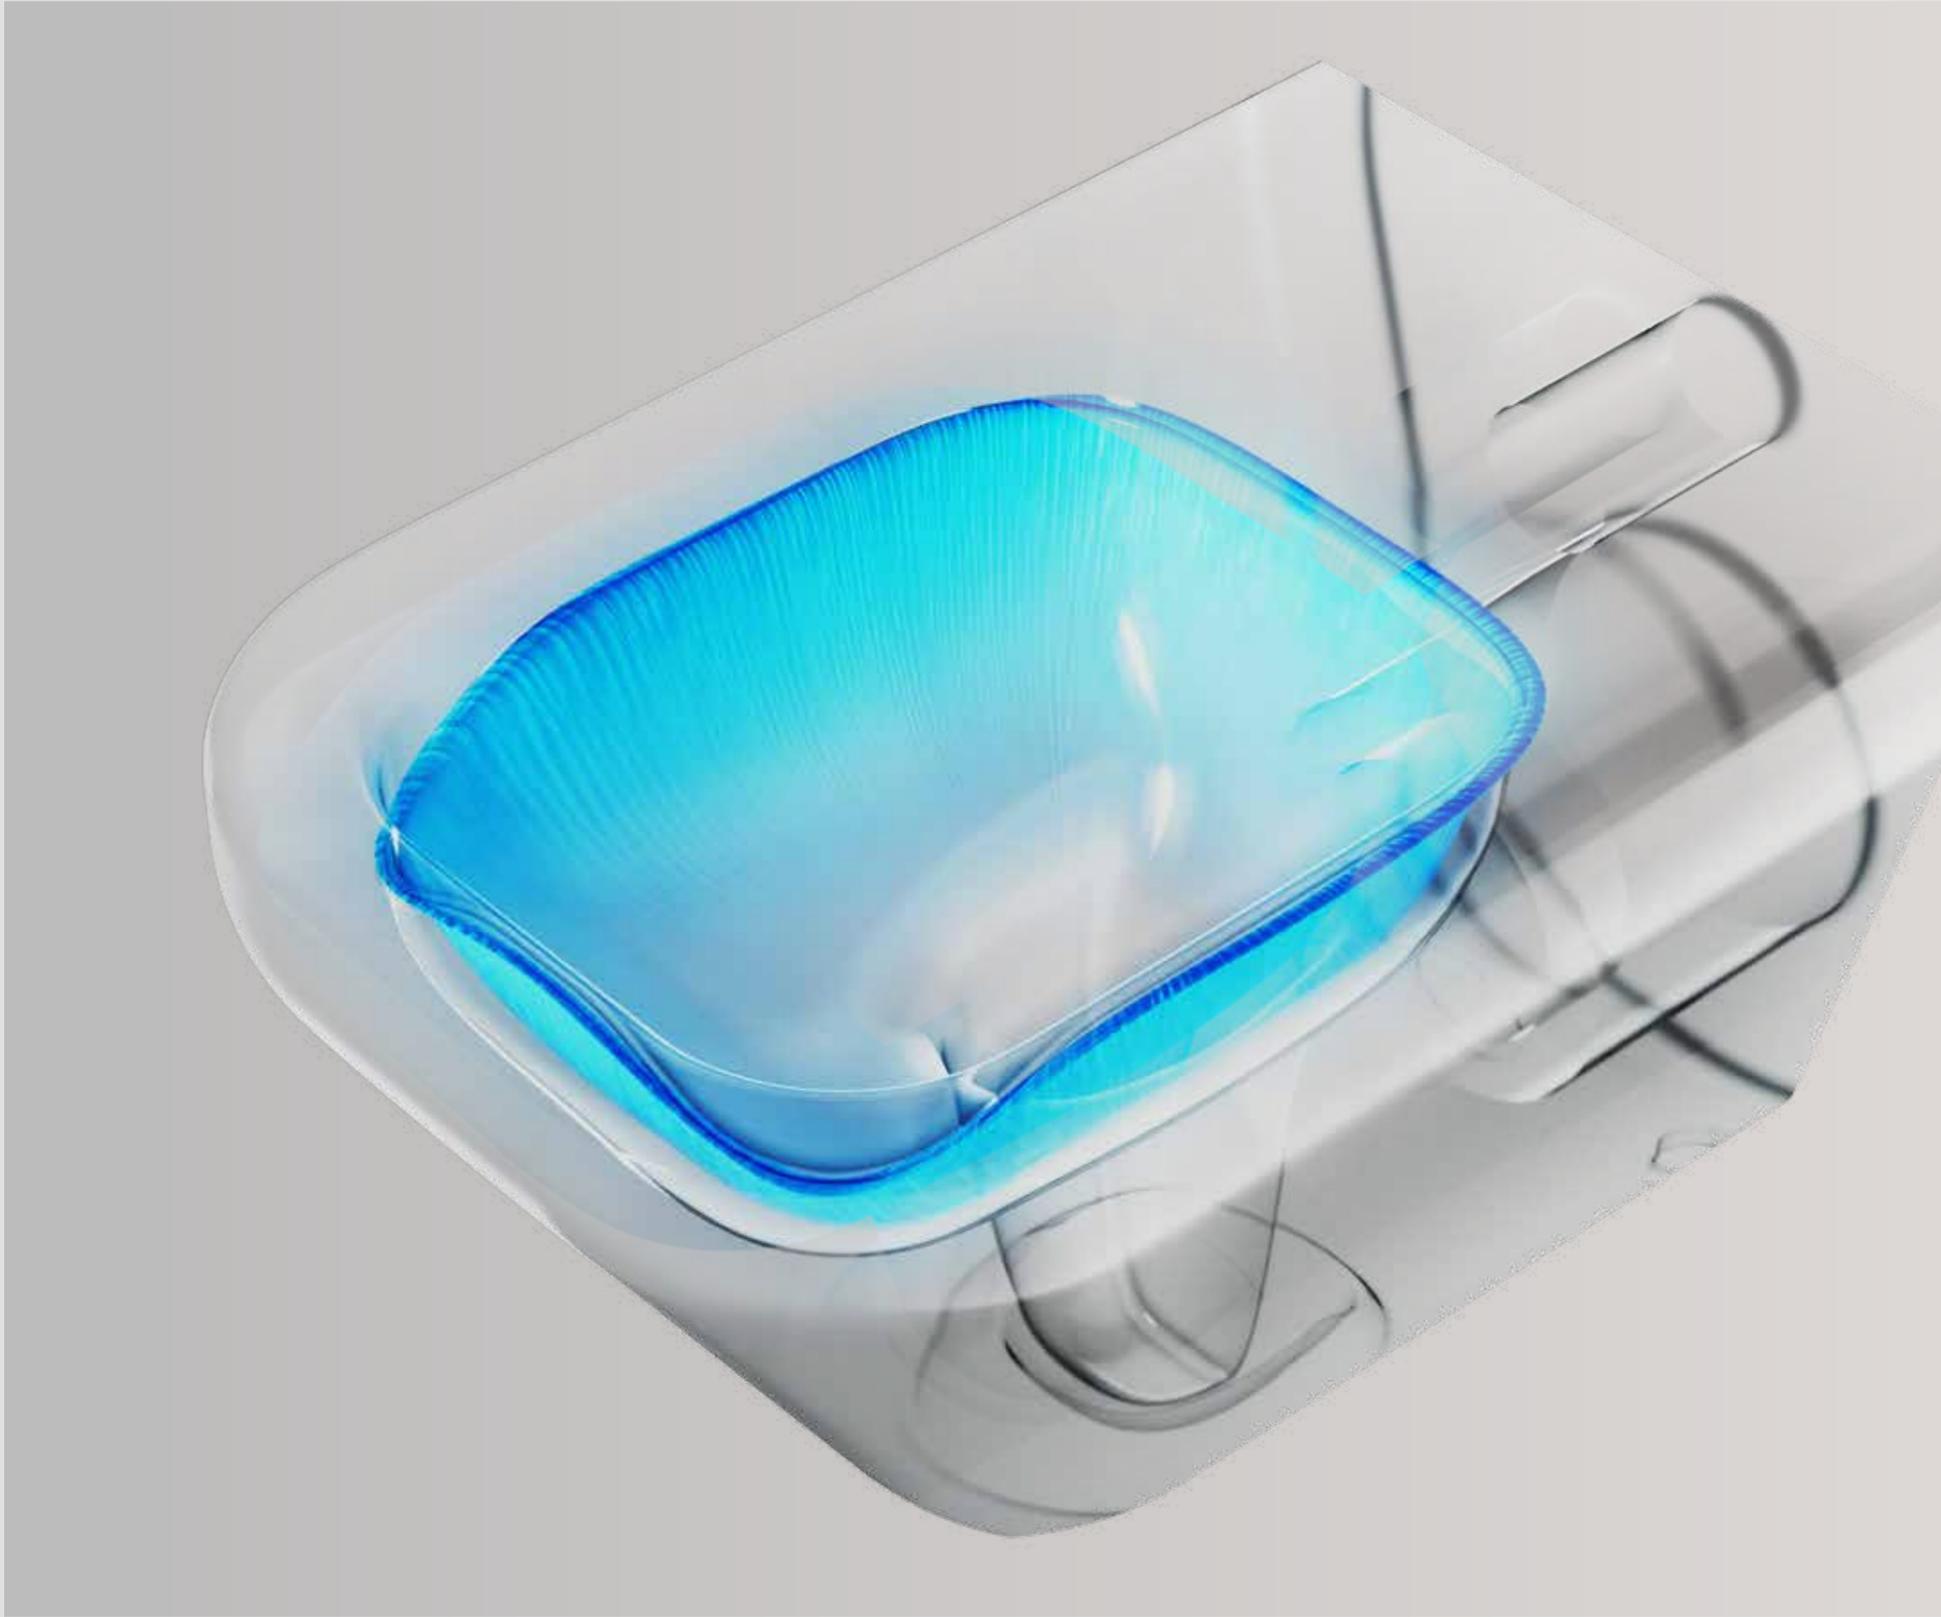

ProSys®

**Engineered
for your peace
of mind.**

The ProSys® installation system provides complete pre-wall solutions for all washroom fixtures: toilets, bidets and basins. With different products for solid and dry wall applications, ProSys® is ideal for a wide variety of projects. The versatile range combines seamlessly with Ideal Standard's range of ceramics and fittings to ensure optimal performance. With end-to-end quality control and exceeding testing standards, the ProSys® system provides complete peace of mind.

*Sample of 1.000 representative households with home property [Germany n=500; Italy n=500] – showing the inner design and technical parameters of toilets.

AquaBlade®

Engineered for hygiene.

Superior, splash-free flushing, even at low water volumes. For spaces where hygiene is paramount, and for bathrooms and washrooms where first impressions are essential, AquaBlade® is the ultimate design solution.

CLEANER
AquaBlade® technology ensures 95% of the surface is cleaned every time.

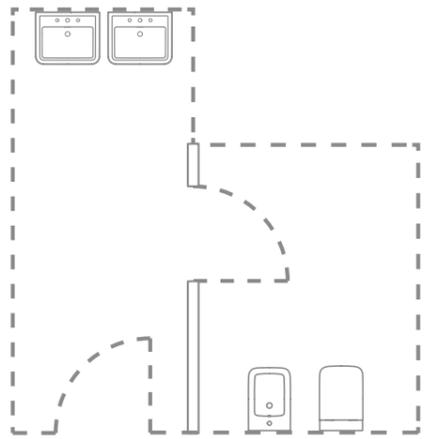

QUIETER
AquaBlade® is proven to be up to 25% quieter than equivalent models.

SMARTER
More effective and efficient use of water compared to standard flushes.

A playful blend of past and present.

Neoclassical design is all about muted and modest luxury style. It shies away from opulence and extravagance, but still exudes elegance.

The Calla collection balances classic features and subtle touches for true sophistication, even in the smallest spaces.

A playful blend of past and present.

Calla, designed by Ludovica and Roberto Palomba, balances classic features and subtle, contemporary touches. As an elegant feature, this basin conveys true sophistication, even in the smallest spaces.

Square form is lightened by rounded edges in the Calla basin and its monolithic pedestal, while the curved design of the Joy Neo mixer tap offers a stylish contrast. Choose from chrome or magnetic grey finishes for an aesthetic that truly expresses your personality.

Where classical meets minimal.

The Neoclassical stylings of the Calla basin hint at opulence while staying true to the minimalism of contemporary ceramics.

Paired with this frame from our in a Silk Black finish for improved durability and appearance, this is a combination that quietly makes a statement, rounded off and complemented by the curved design of the Joy basin mixer in sleek Magnetic Grey PVD finish.

Meaningful technologies, Real benefits.

Our products are packed with meaningful technologies aimed at making life easier, safer, better. Here are a few key benefits our products offer.

Sustainability

Since the invention of the first ceramic cartridge in 1968, sustainability has been at the top of our agenda.

ECO FLOW REGULATOR

Our Eco Flow regulator reduces water consumption to 5L/min on taps, 8L/min on hand sprays and 12L/min on shower heads, without compromising on comfort.

BLUESTART TECHNOLOGY

Saves energy by releasing unheated water when the tap is opened from the centred (and most frequently used) position.

Safety & Comfort.

TEMPERATURE SAFETY BUTTON

Limits water to 40°C to protect vulnerable users when required.

COOL BODY

Ensures surface does not get hot in use and eliminates the risk of user scalding.

LIGHTMOVE®

The FirmaFlow® cartridge enables finer temperature adjustments between 34°C and 42°C.

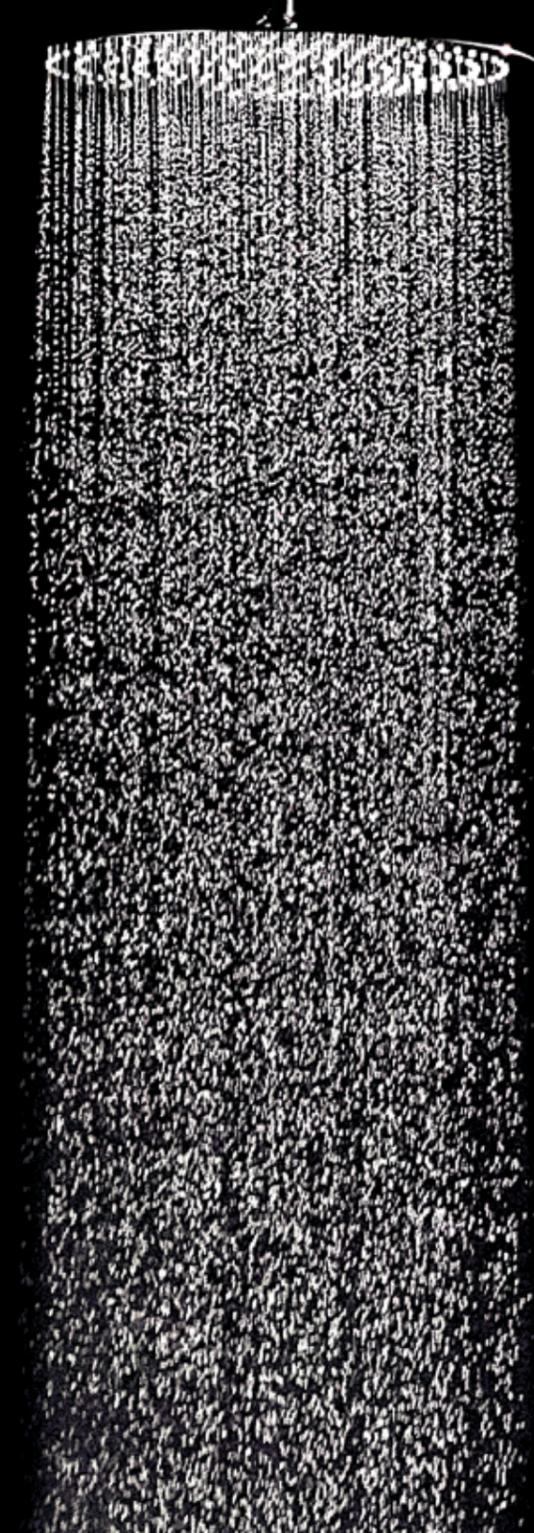

IDEAL COMFORT

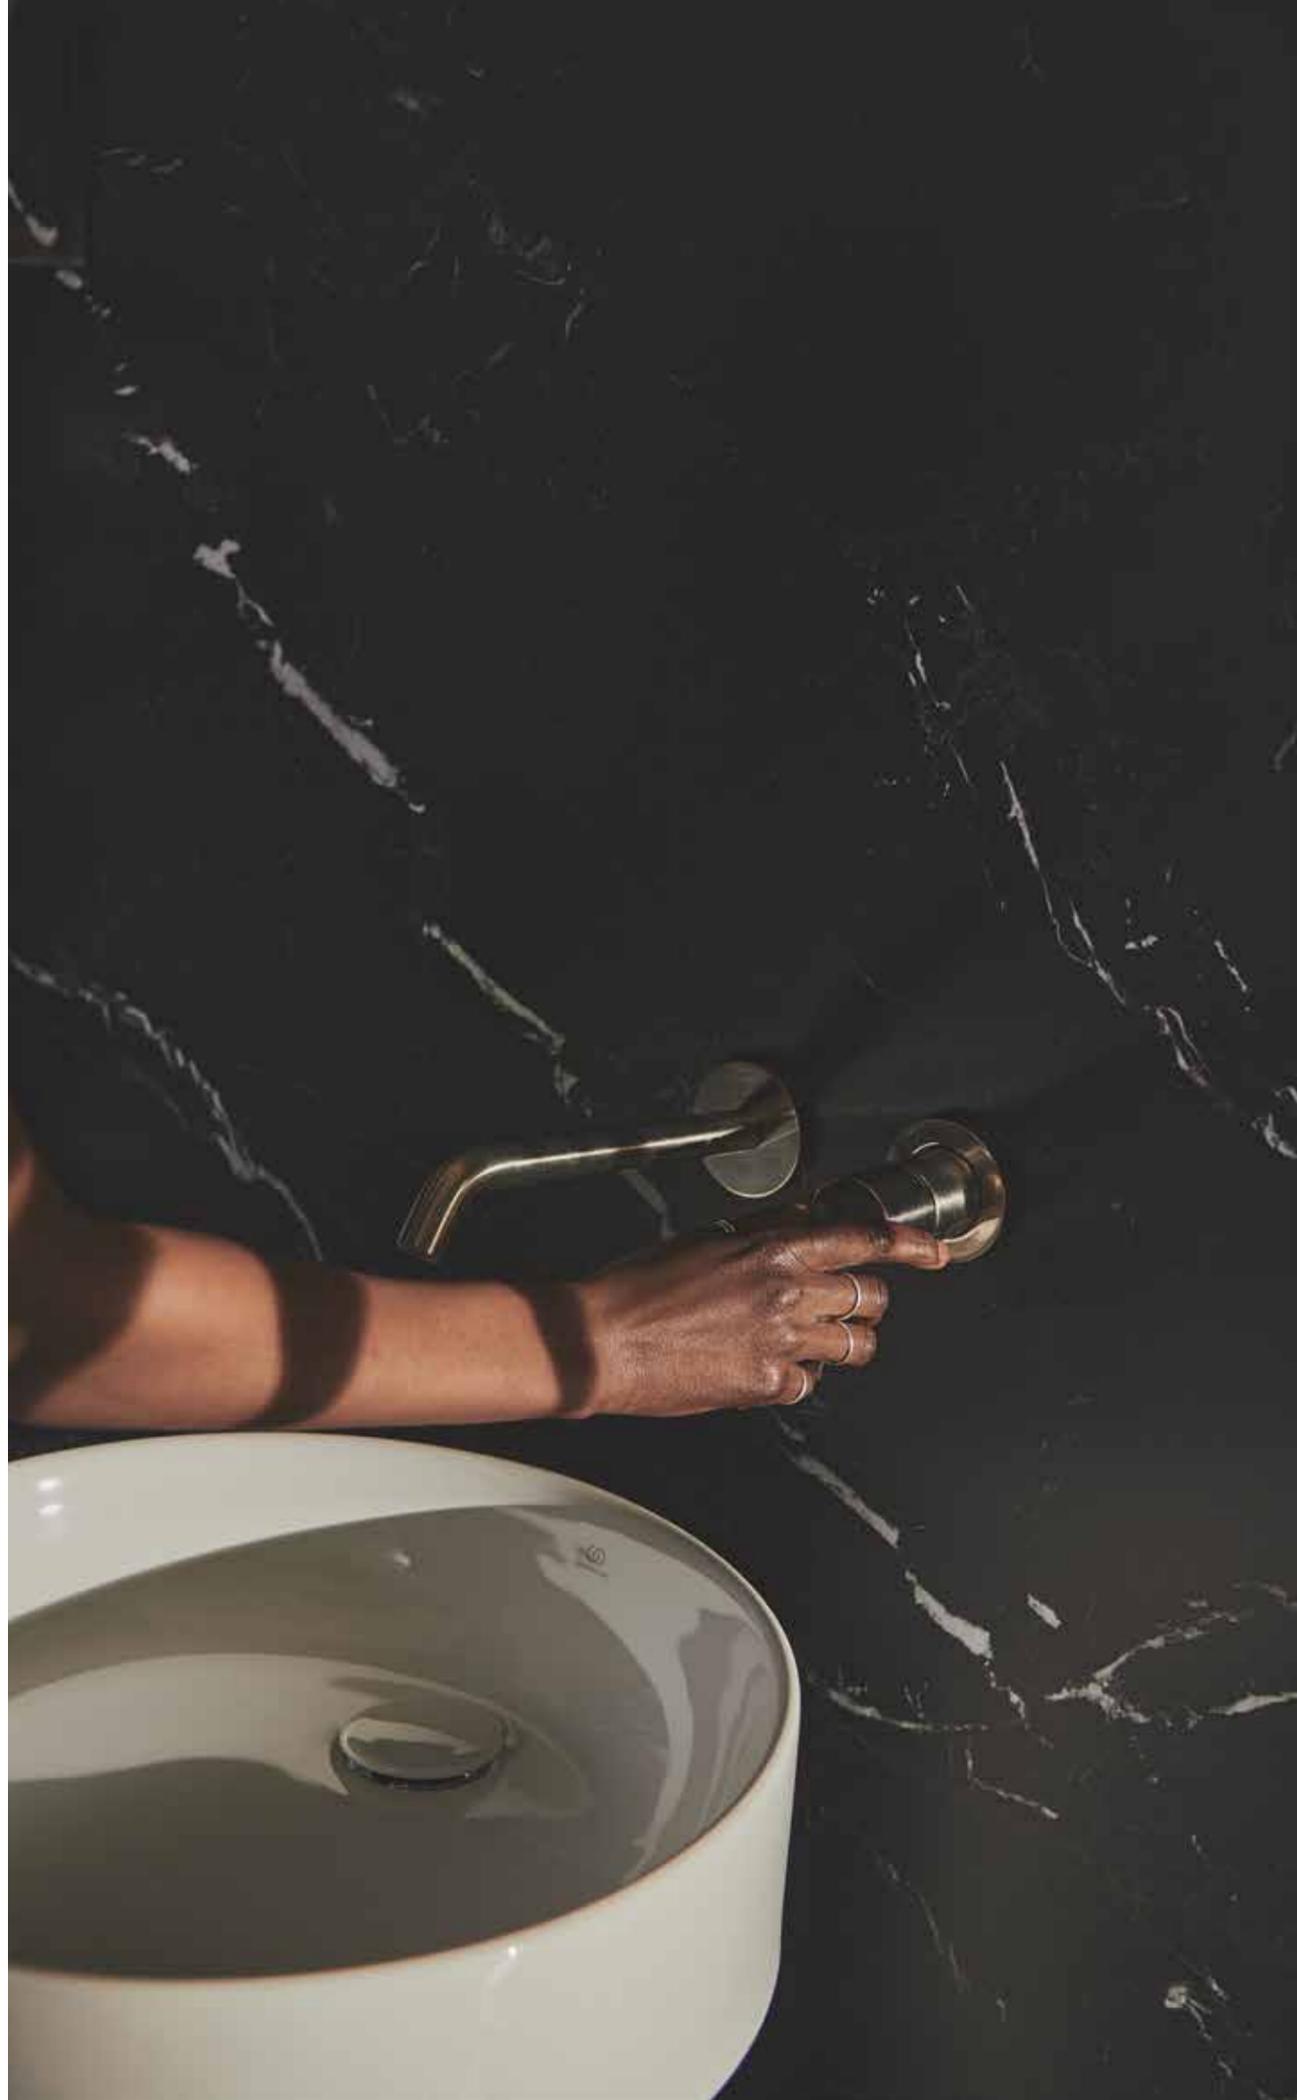

Always the perfect height between the tap and the basin – adapted to your needs.

TEMPERATURE LIMIT STOP

Can be pre-set to protect vulnerable users when required (installation optional).

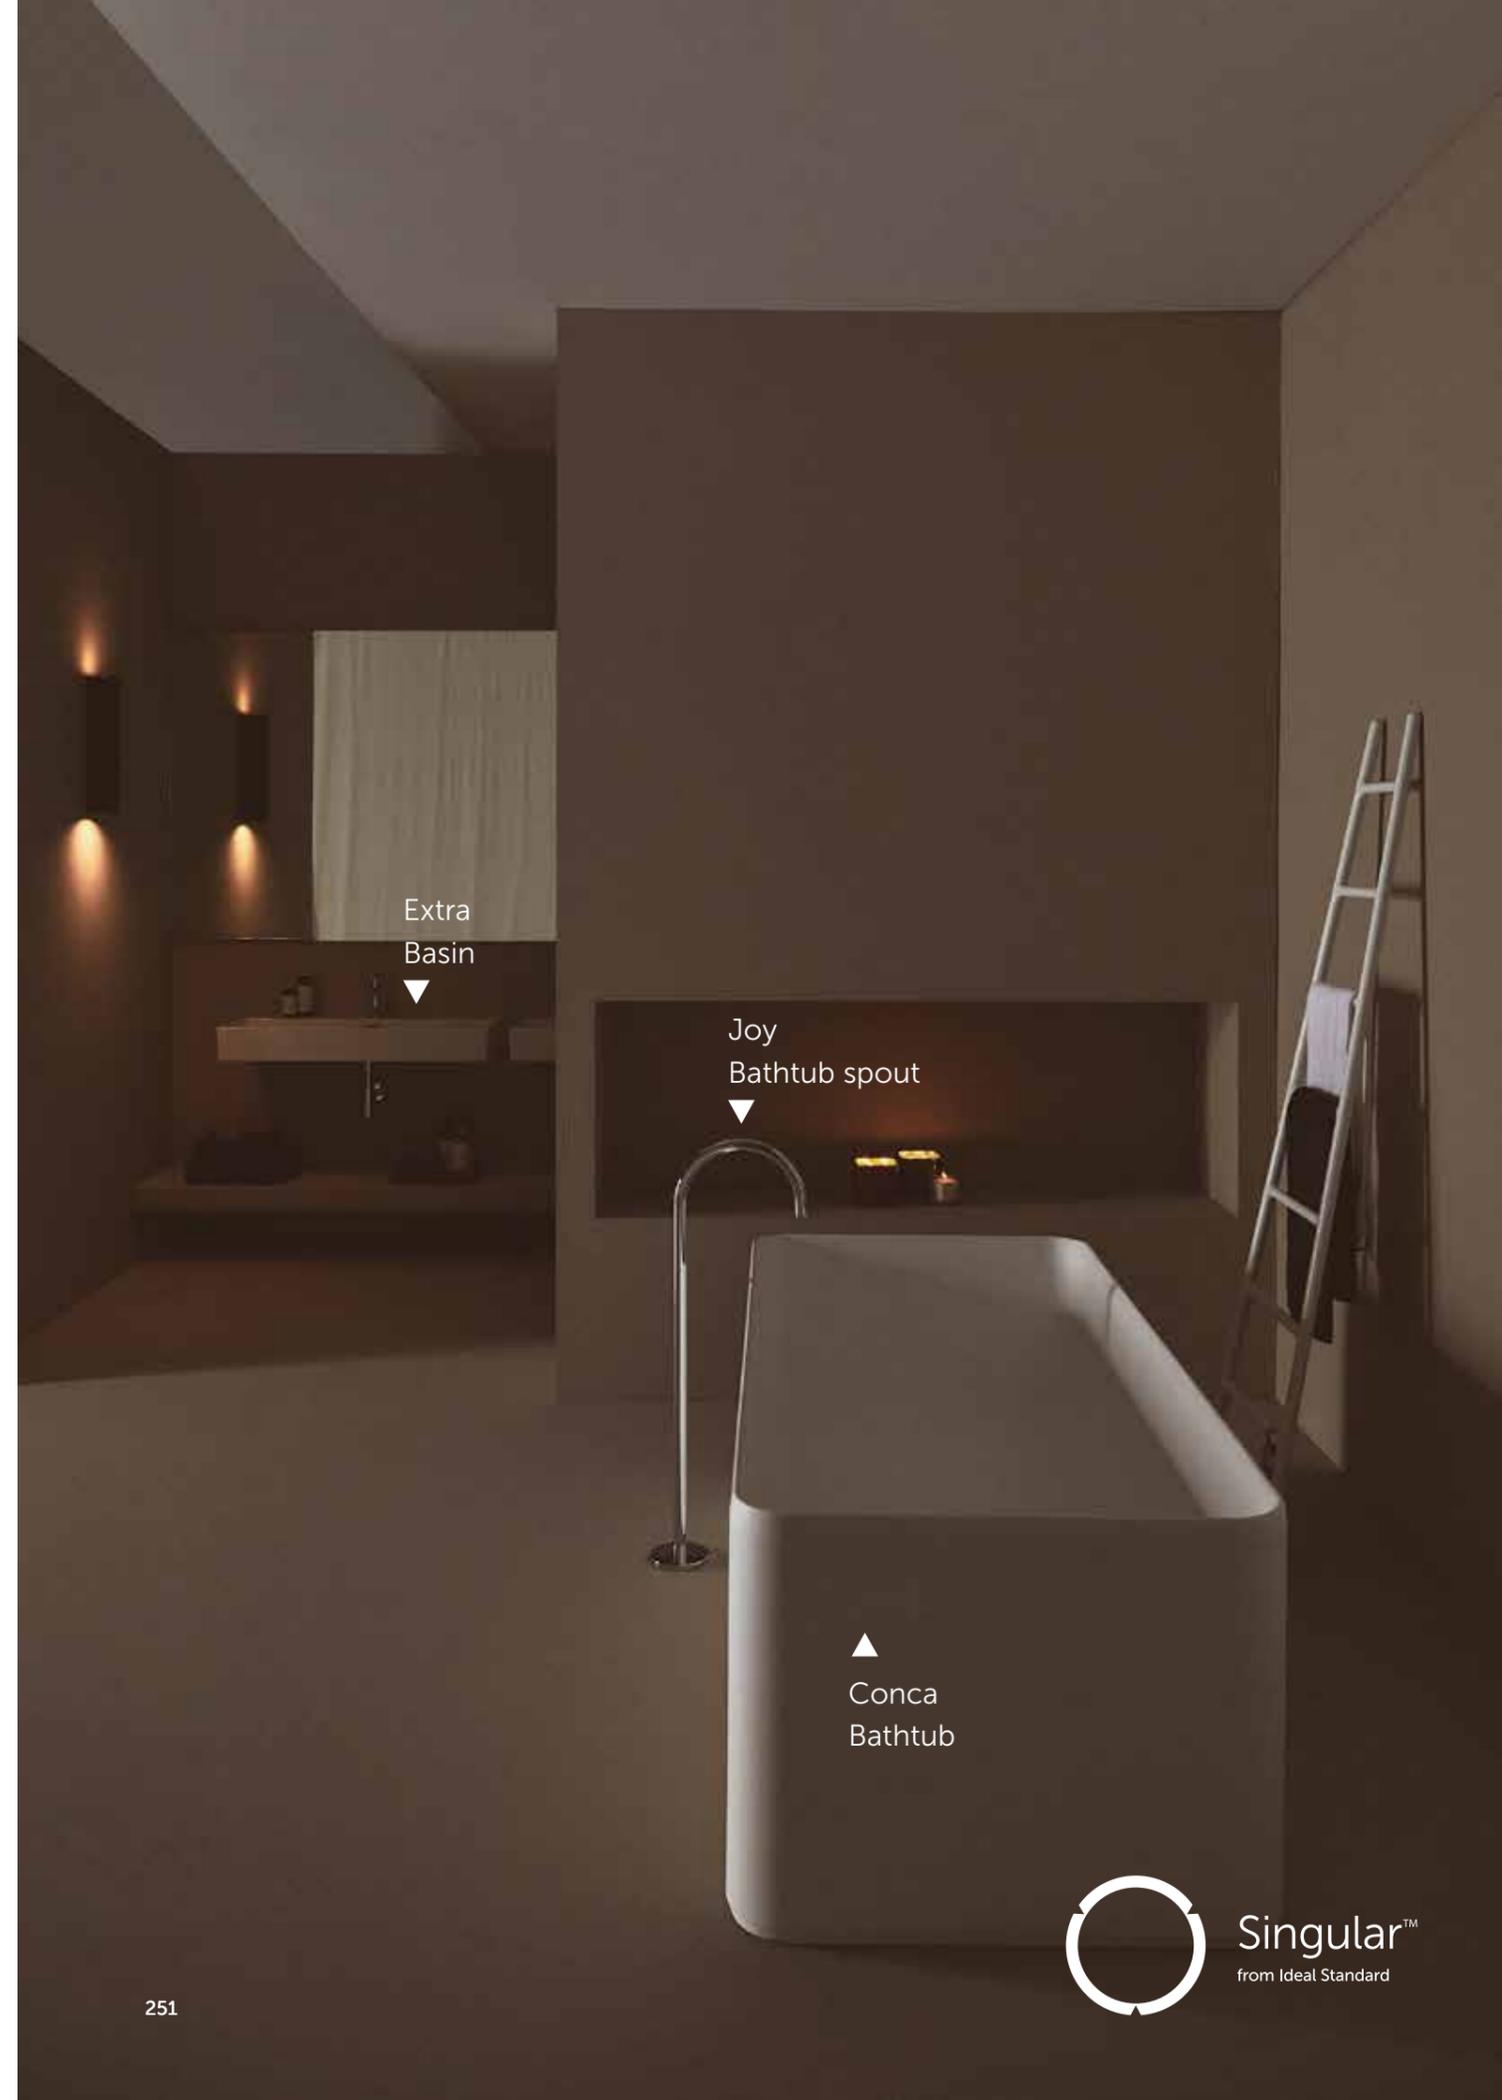

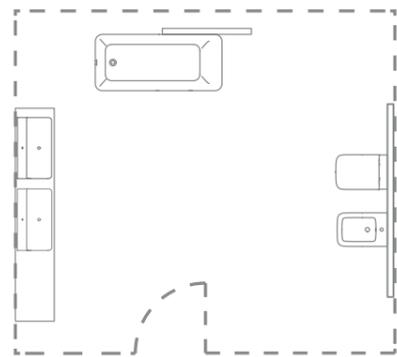

A simple tranquility.

Beautiful design performs its function without fuss. This is exactly what your spa relaxation room demands, creating a tranquil space through form that is elegant and serene.

This Conca bath is at once curved and geometric, a freestanding oblong with fine edges, which is complemented by the square styling of the Extra basin, itself softened by the rounded shape of Joy brassware. It is a place to forget the world outside and enjoy peaceful solitude in simple yet stunning surroundings.
