Special Notes

Designed to be supplied with pre-mixed water. Consideration should be given to safe hot water delivery and the use of an appropriate temperature reduction device see A5900. The downward pointing sensor is set to work in the normal handwashing position. This helps to eliminate false triggering from high visibility clothing associated with forward facing sensors, we also do not recommend the use of Chromium plated wastes. Automatically shuts off if sensor is obstructed for a maximum of 55 seconds.

Stand alone battery powered unit.
