Special Notes

Please click the (Specify this) button then configure the bowl by adding one of the sensor flow 21 electronic urinal flushing products. Mains version can power up to 5 link flushing valves or the battery versions can be independent. Please refer to Sensorflow 21 compact flushing device pages, then add as many urinal assembly types: Mains/linked battery as needed in the room schedule. Not suitable for flushing from a cistern and nominal working mains water pressure needed is 3 Br. Urinal fixed to wall with fixation set provided.

A WRAS approved DC interrupter should be fitted to satisfy the UK regulations.
