ILLUSTRATED PRODUCT DETAILS

Weights

S0737 16.78 KG

Materials

S0737 Vitreous China

Finishes

S0737  White (01)

Designer

Robin Levien, RDI

Standards

BS EN 13407

Special Notes

When installing the urinal with Sensorflow electronics and mains water with a DC interrupter, please refer to the installation instructions in relation to the pipework size required, which must be adhered to. This urinal is supplied with a flexible connecting sparge pipe. If installed with an Auto Cistern, to prevent air locking and cistern overflow condition, an open to air vent must be installed on the down pipe from the cistern, as shown in the supporting drawing.

See options for the Sensorflow flushing device options. The waste can be accessed from the top with an easy to use service key. Brackets, spreader and cap, waste pack with service key and back inlet connection pack all included. (bottle trap to be purchased separately).
